This set enables you to use a PCI card (max. 16.5cm) in the M350 enclosure, when using together with Intel D945GSEJT Half-Height ITX mainboard.

This combination allows fitting a full sized PCI card in a 2.5L design, making it world's smallest mini-ITX + PCI solution.

Hard drive utilization is not affected by PCI card. Use extra ventilation if needed.

Scope of supply:

- PCI-Riser
- Replacement metal I/O ATX shield
- Mounting angle
- 4x screws
