- 650 Mbit NAT
- 8x Gigabit WAN/LAN
- Web-Gui

Support: 📄 First Steps Manual [DE/EN]

CTFROUTER is a complete, pre-installed, ready-to-go Multi-WAN router with many features.

The particular strengths are in the comfortable operation via a web interface (multilingual), the extensive functionality with even server functions (mail, Groupware, SQL,...) and especially in the support of up to 5x WAN inputs (eg. DSL, cable modem ,...).

Hardware :
- Jetway JBC373F38-525L8-B (8x LAN) (Intel Pine Trail-D)
- 2GB SO-DDR-III RAM
- Kingfast F2 SATA SSD 32GB

Software :
ClearOS 7 :
- Open-Source
- Multi-WAN (Kabel, DSL,...)
- 5x Gigabit LAN for free configuration as WAN or LAN ports
- 550Mbit NAT performance
- VPN (PPTP, Ipsec, OpenVPN)
- DMZ, 1-to-1 NAT
- Stateful Firewall
- DHCP / DNS Server
- Console- (VGA) + Web-GUI multi-language (20 languages)
- SSH access
- Gateway Filter (Antimalware, Antispam, Intrusion Detection,...)
- Content Filter, Access Control
- Web Proxy
- UPNP
- Dynamic DNS
- QOS
- Many Server functions (Windows Networking with PDC Support , groupware, Mail Server, MySQL, WebServer, etc...)
