# Packing List

---

Before setting up your product, please make sure the following items have been shipped:

Item	Quantity
System kit	1
54V / 180W adapter	1
Power cord (May vary based on local distribution)	1
Screw for 2.5HDD/SSD, M3x4L	4

If any of these items are missing or damaged, please contact your distributor or sales representative immediately.

## About this Document

---

This User's Manual contains all the essential information, such as detailed descriptions and explanations on the product's hardware and software features (if any), its specifications, dimensions, jumper/connector settings/definitions, and driver installation instructions (if any), to facilitate users in setting up their product.

Users may refer to the [GIGAIPC.com](http://GIGAIPC.com) for the latest version of this document.

## Safety Precautions

---

Please read the following safety instructions carefully. It is advised that you keep this manual for future references

1. All cautions and warnings on the device should be noted.
2. Make sure the power source matches the power rating of the device.
3. Position the power cord so that people cannot step on it. Do not place anything over the power cord.
4. Always completely disconnect the power before working on the system's hardware.
5. No connections should be made when the system is powered as a sudden rush of power may damage sensitive electronic components.
6. If the device is not to be used for a long time, disconnect it from the power supply to avoid damage by transient over-voltage.
7. Always disconnect this device from any AC supply before cleaning.
8. While cleaning, use a damp cloth instead of liquid or spray detergents.
9. Make sure the device is installed near a power outlet and is easily accessible.
10. Keep this device away from humidity.
11. Place the device on a solid surface during installation to prevent falls
12. Do not cover the openings on the device to ensure optimal heat dissipation.

13. Watch out for high temperatures when the system is running.
14. Do not touch the heat sink or heat spreader when the system is running
15. Never pour any liquid into the openings. This could cause fire or electric shock.
16. As most electronic components are sensitive to static electrical charge, be sure to ground yourself to prevent static charge when installing the internal components. Use a grounding wrist strap and contain all electronic components in any static-shielded containers.
17. If any of the following situations arises, please the contact our service personnel:
  - i. Damaged power cord or plug
  - ii. Liquid intrusion to the device
  - iii. Exposure to moisture
  - iv. Device is not working as expected or in a manner as described in this manual
  - v. The device is dropped or damaged
  - vi. Any obvious signs of damage displayed on the device
18. **DO NOT LEAVE THIS DEVICE IN AN UNCONTROLLED ENVIRONMENT WITH TEMPERATURES BEYOND THE DEVICE'S PERMITTED STORAGE TEMPERATURES (SEE CHAPTER 1) TO PREVENT DAMAGE.**

## FCC Statement

---

### **Warning!**

This device complies with Part 15 FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received including interference that may cause undesired operation.

### **Caution:**

*There is a danger of explosion if the battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer. Dispose of used batteries according to the manufacturer's instructions and your local government's recycling or disposal directives.*

### **Attention:**

*Il y a un risque d'explosion si la batterie est remplacée de façon incorrecte. Ne la remplacer qu'avec le même modèle ou équivalent recommandé par le constructeur. Recycler les batteries usées en accord avec les instructions du fabricant et les directives gouvernementales de recyclage.*

## 2.3 2.5" HDD/SSD Installation

---

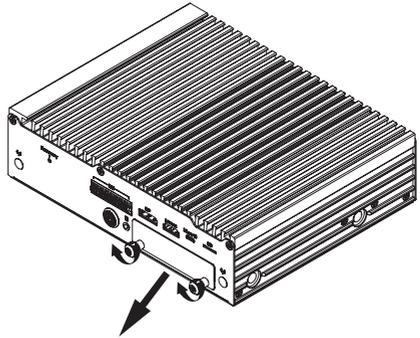

### [Install]

\* Before opening the case, make sure to unplug the power cord.

\* Before Connecting the power, make sure to fasten the case securely.

1

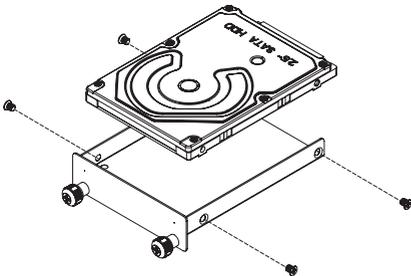

Remove the screws and pull-out the HDD Tray.

2

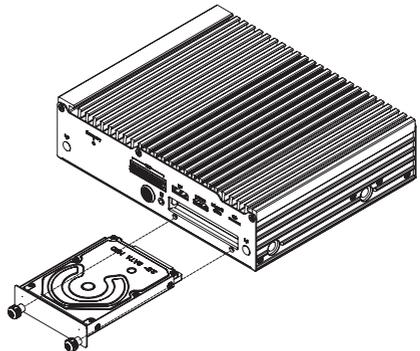

Put 2.5" HDD/SSD on the Tray, and tighten up the screws which was provided in the accessory kit to secure the HDD.

\* please make sure the side with HDD brand logo is face-up.

3

Put the HDD tray back into the chassis, and tighten up the screws.

## 2.4 Recovery button

**Following instructions will help you to re-program NVIDIA® Jetson Nano module.**

1. Please make sure to power off QBiX-Jetson Xavier/Nano system.

2. Prepare a USB cable to connect between your host system and QBiX-Jetson Xavier/Nano system.

For the host system : plug into any USB port

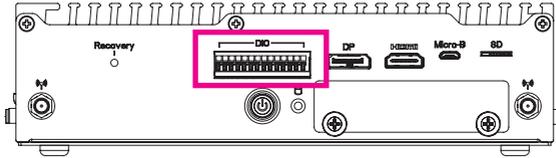

For QBiX-Jetson Xavier/Nano system : plug into USB Micro B 2.0 port

3. Power on QBiX-Jetson Xavier/Nano system, then press Recovery button for 3 seconds, and back to the host system clicks "flash" to start re-program process on QBiX-Jetson Xavier/Nano system. After installation is complete, follow the instructions to install BSP.

4. Back to QBiX-Jetson Xavier/Nano System, complete the informations which the system requires you to fill-in.

5. After filling in all the information, the system will reboot automatically, your re-program process is complete.

## 2.7 Safety and Regulatory Information

---

Risk of explosion if the battery is replaced with an incorrect type. Batteries should be recycled where possible.

Disposal of used Batteries must be in accordance with local environmental regulations.

Failure to use the included Power Adapter may violate regulatory compliance and may expose the user to safety hazards.

**HDMI**™  
HIGH DEFINITION MULTIMEDIA INTERFACE

At the end of its serviceable life, this product should not be treated as household or general waste. It should be handed over to the applicable collection point for the recycling of electrical and electronic equipment, or returned to the supplier for disposal.
